The Arrowwood Sports Draws Large Crowds

Although the weather was threatening Wednesday morning the sportive spirit was not dampened in any way as one of the largest crowds ever to assemble in Arrowwood was on hand to witness the program of events so well planned by the Sports Association. Commencing at 9:30 a.m., a continuous program was in swing until the wee small hours of the morning when the dance climaxed a very successful June 3rd celebration. Prize Winners for the day were,

Girls Softball—Gleichen Redwings defeated A.H.S.
Boys Softball—Milo H.S. 12-6
Girls Basketball—Arrowwood 13-Blind Creek 2
Baseball—Carlsland 4-Queens-town 3
Carlsland 7-Arrowwood 5
Clareholm 4-3-Arrowwood 4
Parade—
Commercial Floats—1 A. A. Clifford, 2 Alberta Pool, 3 Red and White
School Floats—1 Oriental float (VII and VIII), 2 Miss Andrews and Miss Dukes Hon. Men—Dunroo
Best Decorated Car—1 Bowman and McCullough, 2 Jacques
Best Comic—1 Richards and Clifford, 2 Doris Archambault, 3 Merlyn Burrish
Cowgirls—1. Dorothy Brown 2. Lorena Richards
Cowboys—1 Raymond Lewendon 2. J. McInelly
Decorated Bicycle—1 Doreen Hill, 2 Douglas Archambault
Indian—1 Boy Chief, 2 Margaret Steadmore

A full account will appear in next weeks issue.

United Church Notes

Church School at 10:45 a.m.
Morning worship at 11:45 a.m.
The Communion will be dispensed at this service.
All members of the church are urged to be present.

Canada To Have Streamline Locomotives

Marking the peak of engine development in the fifty years since the driving of the last spike at Craigielachie, the Canadian Pacific Railway has under construction five light-weight locomotives, which are being built to attain a speed of 110 miles per hour.

The first five engines will be used to improve the Company's passenger service between Montreal and Quebec, and will haul light-weight coaches now being built for the service. They are of 4-4-4 type, with a total engine and tender weight of 450,000 lbs., or about 25 per cent. lighter than engines now running, and designed to do the same relative work. This meant a consequent

important saving in fuel, water and maintenance. The boilers are of nickel steel designed to stand a pressure of 300 lbs. per square inch, and fittings and appliances are all of the latest type, including super-heaters, feed water heaters, mechanical stokers, roller bearings and tandem connecting rods. They are coal burning, the tenders having a capacity of twelve tons. The tractive effort will be 25,300 lbs.; cylinders 16 1/2 by 28 inches; with the drivers having a diameter of 50 inches. Photographs of a model give a comprehensive idea of the new engines. Test is H. B. Bowden, Chief of Motive Power Canadian Pacific Railway.

ARROWWOOD ITEMS

Baseball tournament at Mossleigh on Wed., June 10th.

Mrs. J. Essler, of Biggar, Sask., is visiting at the home of her Aunt, Mrs. J. McCann.

FOR SALE—Cow, young, quiet and a good milker. Will freshen soon. Apply, D. R. M. Shouldice.

FOUND—A fur-lined leather glove for left hand. Owner can have same by paying for this advt. Apply Resource Office.

FOR SALE—4 dozen glass jars and 1 dozen pints, used only one season. Inquire at Resource Office.

Miss Alice Archambault, of Vulcan, spent Wednesday with her parents, Mr. and Mrs. E. D. Archambault.

Miss Marjorie Hill will be at the home of Mrs. P. H. Coleman on Tuesday, June 10th for the purpose of giving permanents.

Miss M. Newton returned to her home at Rollow after spending a few days with her sister, Mrs. R. Dahl.

Mrs. J. Clarke returned to her home at Didsbury on Monday after visiting for a week with her sister, Mrs. J. Mackie.

Mr. and Mrs. Archie Harrison of Natal, are visiting at the home of Mrs. Harrison's parents, Mr. and Mrs. F. Armev.

The W.A. will meet at the home of Mrs. Leith on Thurs., June 11th. All ladies interested in church work are cordially invited.

Misses Betty and Charlotte Kelly, of Calgary, are visiting for a few days with their grandparents, Mr. and Mrs. E. D. Archambault.

Mr. P. H. Coleman has greatly improved the appearance of the Arrowwood Theatre by redecorating the front of the building.

Miss Verna Ingraham, R.N., of Calgary, is visiting at the home of her parents, Mr. and Mrs. Ingraham. She expects to return to Calgary on Sunday.

Mr. and Mrs. J. S. Culp and Mr. and Mrs. Lawrence Larsen left last Friday for Hershey, Pennsylvania, to attend the annual conference of the Church of the Brethren and will visit friends and relatives en route.

Mr. Irwin Scott was visited last Sunday by his mother, Mrs. E. J. Scott, his aunt, Mrs. M. Dadds, sister Mrs. H. Hanson and two brothers Neville and Fred. They were accompanied by Mrs. H. Becker. All of Vulcan.

Rev. and Mrs. S. M. Barger and Rev. J. Wiandt mortored to Vidora, Sask., early in the week in the interest of church work. From there Rev. Mr. Wiandt will proceed to the General Conference of the Church of the Brethren, which convenes at Hershey, Pennsylvania, June 8. Mr. and Mrs. Barger will return home from Vidora.

Mossleigh's Sixth Annual Sports Day Wed., June 10th

Mossleigh will celebrate its sixth Annual Sports Day on Wednesday, June 10th. A program of sports has been arranged including races, horse-shoe tournament and a 3-game baseball tournament, with the Blackie, Carlsland and Queens-town teams taking part. The first game will start at 1 p.m., second at 3 p.m., third at 6 p.m. In the evening a big dance will be held in the community hall.

QUEENSTOWN ITEMS

A fatal accident occurred Friday night at 7 p.m. when Mr. Sam Grieves, of east of here accompanied by his brother and two sisters, went swimming in a pond near his home. Mr. Grieves either waded in too far or was seized with a cramp as he went down and never came up again. The body was found by the Mounted Police about 4 a.m. Saturday. He leaves a wife and two small children. The funeral was held at his home on Monday at 1:30 p.m., interment in the Bassano Cemetery. The sympathy of many friends is extended to the bereaved family.

The Ladies Aid of Queens-town was held at the home of Mrs. Lund on Thurs. May 28. There were 18 ladies present.

The Bridge Group of the W. I. held an afternoon tea in the club rooms on Friday, May 29. There was a good turnout and everyone enjoyed the lunch.

Mr. Jack Clarke of Didsbury, is visiting at the home of his mother and aunt, Mr. and Mrs. J. Mackie.

Mossleigh is holding its sixth annual sports day on Wed., June 10th. Races, horsehoe tournament, baseball tournament, etc. Big dance in the evening.

The South West group U. F. W. A., held a very successful tea and fashion show at the home of Mr. and Mrs. W. C. Lyle. A report will be published next week.

Mr. and Mrs. D. Vladar were visitors to Lethbridge on Saturday, returning home Sunday. They were accompanied by Gladys Leonard as far as Carmangajew, who visited with her father, Mr. M. R. Leonard.

Watkin's Fly Spray

Buy your season's Fly Spray requirements now so you will have Fly Spray on hand in time to control the fly pest before the flies start breeding by the million.

CUSTOMERS RÖRE
WATKINS FLY SPRAY IS
BEST REASURE

(1) It actually kills flies, (2) it repels flies, (3) it is clean, does not gum, (4) sweet-smelling, will not stain milk or other products, (5) economical to use.

SHOULDICE NOTES

Mr. R. Sheets and Jack Sheets of Standard were visitors at the home of their cousin, Mrs. Sid Sparkes on Sunday last.

A good rain in the Shouldice district would help the crops and also retard the action of the grasshoppers.

The many friends of Mr. Roy Allen will be pleased to hear that he has greatly improved after his recent illness.

U.F.W.A. Notes

A splendid meeting of the Arrowwood Local was held at home of Mrs. M. Norton on Wednesday, May 27th.

Roll call was answered by fifteen members and four visitors.

An invitation to the Women's Conference at Queenstown June 5th, was read by the Secretary, Mrs. Price. Provincial Convener of the U.F.W.A. will be the principal speaker. A handicraft exhibit will be held in conjunction with the Conference. All women are cordially invited to attend.

A covered dish luncheon will be served at noon. The book review of "The Next Hundred Years," by Furnas, was read by Mrs. G. F. Kemper.

It was decided to have a cooked food table at the cooked food table at the tea on May 30th. Audrey Ward was nominated as delegate to University Week.

Mrs. Weines suggested that a vote of thanks be given to the Local for its interest in investigating the library grant. This is worth while library for the Arrowwood school children. Mrs. McEne assisted the hostess in serving at the tea hour.

Thirteen short European cruises from British ports will be made between May and October by the Canadian Pacific liners Montclare and Montclair this year. The Baltic and the Mediterranean will be covered extensively in these voyages.

Dr. A. H. Compton, physics research expert, recently returned from a trip to Honolulu and S. Aorangi, after studying activities of the cosmic ray in the southern hemisphere. A specially constructed house on the island's after-bridge contained the delicate apparatus for the purpose of securing more data on the little-known but ever present ray during the ship's Antipodean trip.

A Moral Renaissance

In a world riven with fear and mistrust, with greed, hatred and social rampant between individuals, between economic, political and social groups and between nations, there must be much inward searching of souls, much communing of hearts in an effort to find the cause of all this strife in the hope that thereby a remedy may be found and once again nations may live in peace and people may pursue the paths of progress with hope and confidence in the future.

That there is much travail, seething and unrest at home and abroad no one can gainsay, and until some key has been found which will unlock the gates to peace and prosperity, there can be no assurance of widespread happiness and contentment.

What is this key, millions of people are asking themselves and asking one another as they view with dismay the ruffled waters of a troubled humanity?

Perhaps the answer is to be found in the statement made in the British House of Lords on March 19, 1936 by the Marquess of Salisbury, son of the famous prime minister of the same name in the late Victorian era, when he said:

"The cause of the world's state is not economic; the cause is moral. . . If I may use a phrase which is common in a great movement which is taking place in this country and elsewhere (The Oxford Group) what you want are God-guided personalities, which make God-guided nationalities, to make a new world. All the other ideas of economic adjustments are too small really to touch the centre of the evil."

If such a statement were made from the pulpit, it would probably be regarded by many as more or less of a commonplace, something to be expected from such a source, but when it is made by a peer of the realm in such an institution as the House of Lords of Great Britain, it has more arresting and significant effect and serves to emphasize what might be considered a platitude if uttered by others elsewhere.

The mild or moderate great leaders are being directed in this channel as is evident from recent discussions among the people, and the influence of their political or economic creeds are accepted, inspire serious thought and consideration.

A similar idea was expressed about the same time by President Roosevelt of the United States when he said:

"No greater thing could come today to our land than a revival of the spirit of religion—a revival that would sweep through the homes of the nation and stir the hearts of men and women of all faiths to a reassertion of their belief in God and their dedication to His will for themselves and for their world. I doubt if there is any problem—social, political or economic—that would not melt away before the fire of such a spiritual awakening."

Further testimony in support of this sentiment comes from Roger Babson, founder of the Babson Statistical organization, whose prophecies of future trends based on statistical data are regarded as authoritative over the entire continent. Mr. Babson recently said: "I expect a business revival, but only a spiritual awakening among the people can make it enduring."

These and other authorities and leaders in many countries of the world are unanimous in their opinion that before there can be a change in the national and international outlook it is essential that the viewpoint be changed and that, in effect, a moral renaissance is necessary for the national viewpoint can be none other than that of the individuals which constitute it.

It might perhaps be said: What is the use of Canadians adopting an unfeasible or a lofty moral viewpoint so long as the peoples of other countries exemplify a diametrically opposed outlook? Such a restricted conception of purpose and duty could only serve to delay the consummation of the peace, concord and prosperity which the great majority desire to see. Reform and improvement must first come from within and spread outwardly like the ripples on the water from the cast stone.

Whether one agrees or not with the doctrines of the Oxford Group movement, one cannot but recognize that when they draw attention to the fact that there must first be a change in the individual before there can be a changed national viewpoint, they are hitting the bullseye.

Keeps Passenger Log Book

Capt. William H. (Bill) Wincapaw of Boston, veteran Massachusetts aviator, keeps a passenger log book which everyone must sign before they go along with him. The book now contains more than 50,000 signatures. The most recent flight was a load ever carried by Wincapaw was a group of 11 persons, each of whom was 83 years old.

It's not the hours you put in that count, it is what you put into the hours.

CHAFING and SORENESS

Don't allow Mecca ointment to escape the lotion and ointment from chafing. Clearly marked on the label with a picture of a person in distress. Mecca ointment is sold in 1/2 lb. and 1 lb. sizes. Price 1/2 lb. 50¢, 1 lb. \$1.00.

MECCA OINTMENT

Eighty per cent. of the tornadoes in the United States occur between noon and 6 p.m.

China has just established zone rates for air mail.

Not Given Much Credit

But Wives of Early Western Settlers Did Their Part

First white women to the plains of Western Canada was Marie Galbreath, who journeyed to the Red River in 1807 and later as far west as Edmonton, said R. A. Corbett, local historian, in an address at Saskatoon.

Talking on "Early Women of Western Canada," the speaker remarked early fur traders were notably reticent in giving credit to the women who accompanied them into new lands.

Mr. Corbett referred to the wife of David Thompson, one of the west's earliest explorers. Mrs. Thompson he said, was a half-breed girl born at Die a la Crosse in 1788, daughter of Patrick Small, one of the first white traders on the Churchill River. David Thompson married the girl when he was 14 years of age, and from then on she was his constant companion.

The speaker regretted Alexander Mackenzie had left little record of the part his wife played in his northern explorations.

"It is unfortunate," he continued, "that we know so little of the wives of the Selkirk Settlers, of such white women as the wife of Father Rowland, who with her husband made old Fort Edmonton famous for its hospitality during the early years of the last century."

Asphalt in Petroleum

New Process May Make It Available For Paving Material

Oil wells which supply the gasoline to move vehicles were pointed out today as a new source of paving material over which to move them. All petroleum contains asphalt, but much of it has not been utilized for paving because of impurities. By a new vacuum process of extraction, demonstrated at the International Petroleum Exposition, pure asphalt falls like rain out of the towers of Tulsa. The stills are sitting in which this is done was invented by Dr. Sidney Brown, director of petroleum research at the University of Tulsa. The stills are towers made of heavy steel, 40 to 60 feet high and five to 22 feet in diameter.

In the interior of the towers are almost perfect vacuums. Into them is run petroleum from which gasoline and kerosene have been extracted. The liquid is shot into the vacuum tower at 6,500 degrees Fahrenheit, a temperature at which it instantly explodes into a cloud of vapor. Out of this vapor the asphalt falls completely pure in a coal black rain.

Collars Replace Ribband

Holders of Certain Decorations Must Change When Ordered

Holders of certain orders wore their "collars" when the King held the second level of his reign at St. James Palace. That was because the levee coincided with the birthday of Queen Mary, and notice announcing the honor the footstep: "M.B.—May 20 is a collar day."

Collar days—there were 35 last year—were days on which, if decorations were worn, the Ribband of the Garter, the Thistle, the Bath, St. Michael and St. George, the Royal Victorian Order, and certain other orders are replaced by the collar of the order.

It is laid down in court regulations that collars must not be worn after sunset, except by the King's special command, so that they are rarely seen at public dinners or receptions. The collar—with the badge of the order suspended from it—is worn under the shoulder straps or epaulettes of uniforms, fastened to the waist bows, 1 1/2 inches wide, at either side.

New Northern Sea Route

Navigators Of Soviet Have Made Mariners' Dreams Come True

A new sea route has been opened by Soviet navigators after three years' preparatory work. The Russian cargo vessels have succeeded in establishing a route to the Far East along the northern coasts of Europe and Asia. Such a way has been the dream of mariners for centuries, though 10 years ago Naansen declared the idea to be impossible. An icebreaker fleet placed along the route has kept the channels open. More than 100 ships of the Soviet mercantile marine have this winter sailed along this roof of the world without a single mishap. Ice radio stations keep vessels informed of weather and ice conditions.

The first lesson in the school of experience is simple. You just sign a note for a friend.

Get Practical Training

High School In Jacksonville, Florida, Has Splendid Plan

In Jacksonville, Florida, high school boys and girls are getting training for future jobs in the community at the same time they attend school. They go to school part of the day and the other part they spend in the department store, advertising office, broadcasting station, theatre, hotel, classroom, telephone office, learning practical work right on the job. Since the inauguration of the "Jacksonville Plan" about two years ago, 86 per cent. of the vocational pupils have secured jobs upon graduation, and the plan is spreading to other cities of the south and west. The majority of the boys and girls leaving high school today cannot go to college, yet their training is directed toward that goal. When they apply for a job, the employer asks: "What can you do?" The answer is: "I don't know, but I can try anything." The Jacksonville graduate says: "I have had two years' experience in a bank," or in an automobile mechanic's shop, or any other of the 43 different types of training positions in the community—Christian Science Monitor.

Admiral Of Yacht Squadron

King Edward Has Official First By Edward VII.

The King has become Admiral of the Royal Yacht Squadron, perhaps the most exclusive club in the world. Edward VII. was the first holder of the office of admiral, inaugurated at his accession in 1901. The club itself was established in 1815. A story circulated that the famous royal racing cutter Britannia is to be sunk to spare her indignity of the ship-breaker yard. However, enquiries showed this report incorrect. The King has given instructions that the sails and rigging of the craft be sold, but the remainder of the equipment is to be stored and no instructions have been given regarding the hull. The Britannia was built in 1883 for Edward VII. when he was Prince of Wales. The famous cutter won 231 first prizes and 129 other awards in 625 races in the course of 43 years of racing.

Future Of Quintuplets

Dr. Allan Roy Daffoe Hopes They Will Become Normal Young Women

When Dr. Allan Roy Daffoe's hopes the Dionne quintuplets will become just as normal young women as girls born singly rest largely now on the women to be entrusted with the education of the famous babies who are now two years old. Admitting he had few fears left about the babies' health, Dr. Daffoe said he and the other guardians will shape the babies' lives until they are 18.

Phones In Canada

Canadians Do More Phoning Than Any Other People

Canadians do more telephoning than any other people in the world. Statistics released at Montreal show every man, woman and child in Canada held an average of 213.4 telephone conversations last year. The United States with 31.3, Denmark and Sweden were next in order. In Canada there are 11 phones for every 100 persons.

Needed Larger Shoes

A pair of size 39 shoes, costing \$88 was made in Finland, Ohio, for Robert Wadlow, the 18-year-old giant of Alton, Ill. The shoes, probably the largest ever made, were returned, however, because Wadlow said they "pinched" his feet.

Crossing the onion and the garlic plants has produced a new vegetable known as the "garlion," said to possess the best qualities of both.

Need More Scholarships

More Opportunity Required For Bright Students Without Means

Dr. R. C. Wallace, newly-appointed principal of Queen's University, said at Ottawa that Canada needed more scholarships for her students. Dr. Wallace, president of the University of Alberta, succeeds Dr. W. Hamilton Pfyfe, who accepted principalship of Aberdeen University. It should be possible for a student, irrespective of means, if he has the mental ability, to go right through school and college, said Dr. Wallace.

Regarding positions for university graduates, Dr. Wallace said: "People to-day are realising more and more the importance of trying to help the trained person and many businessmen are recognizing this and doing all that lies in their power to prevent the trained person from going to waste."

"Sports have a real value in their correct place," he said. "We must remember that students do not go to the university for sports. That is not why universities were founded."

SELECTED RECIPES

HERMITS

- 1 cup butter
- 1 cup sugar
- 3 eggs
- 1 cup raisins, stored and chopped
- 1 teaspoon each allspice, cinnamon and nutmeg
- 2 cups flour

Creep through Magic Baking Powder Cream together thoroughly beat and sugar, then with a wooden spoon work in raisins and spices, then the well beaten eggs, then flour and baking powder, which have been sifted together. Roll out and cut with very small cutter. Bake in moderate oven about 10 minutes.

Known As Electric Man

English Farmer Can Take 150 Volts Without Feeling It

Invalidated out of the British army as a hopeless cripple after an attack of rheumatic fever, T. Lintott, a farmer of Teynham, England, has become known as "the electric man." When making repairs he never bothers to disconnect the wire. He can take 150 volts without feeling it. After leaving the army he threw away his crutch, mounted a motorcycle and learned to ride unaided. Since then he has needed no crutch.

World's Only Dwarf Elephant

Hardly Five Feet Tall But Weighs 1,760 Pounds

The smallest adult elephant in the world arrived at St. Nazaire, France, to make his debut in a French circus. He is nine years old, his name is Auguste, he is slightly under five feet tall, and he weighs the trifling total of 1,760 pounds. Auguste was born a normal elephant, but suddenly stopped growing, and is a dwarf to this day. He arrived in a crate labelled: "Fragile; don't turn upside down."

In time of trouble, the old Union Jack looks good to others as well as Britons.

Russia claims to have 1,300,000 soldiers guarding Soviet borders.

Was Noted Explorer

Harry Whitney, Of New York, Dies In Montreal Hospital

Harry Whitney, of New York, noted explorer and big game hunter, died in hospital at Montreal recently. He was born in 1873.

In 1909 and 1910 he was the centre of a controversy about discovery of the north pole. Mr. Whitney had gone north with Admiral Peary, and in 1909 both Admiral Peary and Dr. Frederick A. Cook returned from the Arctic and both claimed discovery of the north pole.

"Doubt" was cast on Dr. Cook's claims, and Mr. Whitney entered the controversy. He said he had gone hunting while with the Peary expedition and met Dr. Cook, who left instruments, clothing and other effects with him which Whitney cached.

He said Whitney refused to take them aboard his vessel, the Roosevelt.

When the controversy broke it was a case of "either-or." Whitney destroyed Cook's records or had pushed them left behind. Mr. Whitney made only one statement, that Dr. Cook had told him of reaching the north pole and had sworn him to secrecy.

Mr. Whitney returned to the Arctic in three successive summers and continued to be a member of parties which went to the Arctic with Bartlett until 1930.

Reproduction Of Old Shop

Merchandise Of Century Ago Shown In New York

An American company 100 years ago made a pair of silk stockings for Queen Victoria. They are on exhibition in a Fifth Avenue, New York shop, with proceeds going to Wash Air Fund. The shop is a reproduction of a store opened in 1871, and is furnished with counters, desks, a safe and a stove, some of which were used in the last century. Merchandise of 100 years ago is displayed.

Among the attractions on exhibition are the embroidered silk wedding hose worn by a bride in 1847, and a pearl and gold handbag made of fabric from a priest's robe in the 16th century.

May Live In Palestine

Halli Selassie Is Considering Palace On Mount Of Olives

A palace on the Mount of Olives built by an emperor now in exile may become the permanent home of another fugitive sovereign. The Italian emperor, who before the Italian armies, may make his residence in the Kaiserhof hotel, built by Kaiser Wilhelm II for his bride, the Russian princess Augusta Victoria, after they visited to Jerusalem at the end of the last century, it was reported. At that time Palestine was part of the Turkish Empire.

The Negus recently visited the palace, which is now a monastery.

Unusual Companions

A Canadian hunker goes and a lamb, inseparable companions on a road. The farmer near Berkeley, California, understood each other perfectly. When the goose is lonely and wants the lamb for company, it follows the lamb wants company it bleats. Each always responds.

Census Questions

These are the questions that will be asked about each person by a Dominion Government census-taker sometime during the month of June:

- 1 Your name and where you live
- 2 Is your home owned or rented?
- 3 If you own your home give the value, if you rent it, the rent per month
- 4 How many rooms are in your home and is it an apartment, a row or terrace, a semi-detached house, a single house or a flat.
- 5 Your relationship to the household (whether head, wife, son, daughter, uncle, boarder, etc.)
- 6 What is your sex
- 7 Are you single, married, widowed or divorced
- 8 What was your age at last birthday

- 9 In what province of Canada or in what other country were you born
- 10 If you were not born in Canada in what year did you immigrate, and in what year were you naturalized (For those then British born)
- 11 What is your nationality i.e. to what country do you owe allegiance
- 12 What is your racial origin
- 13 Are you able to speak English or French
- 14 What is your mother tongue
- 15 Are you able to read and write
- 16 How many years have you attended school
- 17 How many months at school since Sept. 1, 1936 (For persons of school age)
- 18 If employed, what is your present occupation (as carpenter, farm labourer, insurance agent, etc.) If you have no gainful occupation, state whether you are a student, retired, homemaker, etc. If unemployed, state the occupation at which you were last employed (For all persons 14 years of age and over)
- 19 In what industry are you employed (as dairy farm, iron foundry, street railway, drug store, etc.) If unemployed state the industry in which last employed
- 20 Are you an employer, a wage earner, an unpaid family worker or are you working on your own account
- 21 Since your occupation at the present time may not be your usual occupation, you will be asked to state what is your usual occupation, industry and status therein
- 22 If you are a wage-earner, you will be asked if you were at work on Monday, June 1, 1936. If you state "no", you will be asked whether it was because of: 1 no job, 2 lay-off, 3 strike or lock-out, 4 sickness, 5 accident, 6 holiday, 7 other reasons.
- 23 If you were not at work on June 1, give the number of weeks since last employed.
- 24 If you have a job, you will be asked to state whether it is full time or part time or whether it is a relief job.
- 25 You will also be asked the number of weeks you have worked during the last twelve months prior to June 1, 1936, including holidays with pay, and your total earnings during the same period.

Mapleleaf Club Jottings

Friday May 29, at 6:30 sharp Maple Leaf Club Members joyously scrambled into various automobiles held in readiness at Taylors' by the transportation committee. The destination was known only by the very secretive program committee, requiring everyone's presence on time, and kept all the cars together. The disadvantage of this arrangement was that the first car escaped all the dust, and cars wasn't it all the time. Every cloud has a silver lining, even a dust cloud, and our destination was ours. The site chosen was near the West Arrowwood creek bridge on the river flat. A softball game was speedily organized and restrictions as speedily placed on the boys, to make the game more even and interesting.

The mosquitoes suffered under no restrictions at all and generously dispersed their favours with gonial impatience. Such a good time was being had by all that neither mosquitoes nor club members complained.

After the game, a huge bonfire was built, and when it had burned down to toasting proportions, the real business of the meeting began. Winners and buses were handed out, and soon a circle of youth stood around the fire holding sizzling and frizzling wieners on the

ends of toasting sticks. Buckets of lemonade were made, and cakes made their rounds. Then the second treat of the evening, toasted marshmallows.

Leonard (TATZEL) Williams couldn't stay out of the tree swinging from branch to branch and peering about. But he was official camp fire engineer and was looking for dead branches.

Mr. Currie had to leave early for Glendene. Mrs. Taylor and Mrs. Clifard remained interested spectators of all the proceedings. So did the moon and the stars. There was plenty of action.

The boys tried their strength at various trials, the girls played leapfrog and danced fairy dances. Ross Soper contributed some ballads, everybody ate peanuts, and hilarity ruled supreme. With the program unfinished, the fire was carefully extinguished and a tired moon-quito bitten but happy crowd went home. It was not decided to hold another meeting in June.

Here and There

What a practical newspaperman finds interesting on a cruise around the world in the Canadian Pacific flagship Empress of Britain can be counted upon to capture the imagination of stay-at-home. Last winter Alan Maurice Irwin, a Montreal writer, made the cruise. He saw intriguing places, outstanding people and strange customs. So he sat down and wrote a book which is illustrated by photographs he made with his own camera, filled with amusing sidelights upon human life. Now, under the comprehensive title "—and ships—and sailing was," the book is on Macmillan's fall list.

That United States investors' capital would flow into Canada in an even greater volume is the prediction of John B. Hastie, of the Mutual Life of New York office in Chicago, speaking before the Life Underwriters Association of Toronto, at the Royal York Hotel recently.

Vancouver Island, known as the historical cradle of the Pacific Northwest, is to be featured this summer by a special cruise of the Princess Norah, of the Canadian Pacific B.C. service, which will make a complete circuit of the island, leaving Vancouver at 2 p.m. July 13, for a seven day trip in the paths of the early explorers.

During the winter season, just closed, there was witnessed the greatest step forward in skiing travel ever recorded. Over 61,000, more than a fifth greater than last year, made journeys over the week-end from Montreal to ski territory in the Laurentians, the mountain paradise to the north of Montreal thoroughly covered by Canadian Pacific Railway. Many came from cities in the Eastern United States to enjoy the sport.

Nine weeks have been named and arranged for Vancouver's Golden Jubilee celebrations proper this summer but the festivities will cover the whole season and are expected to attract visitors from all over the world. One of the high lights will be the re-enactment of the arrival of the first Canadian Pacific train half a century ago.

**We May be
Able to Save
Your Life**

● We feel that the cost of this ad is money well spent if it makes motorists in this town stop and think about the tragic effects of blow-out accidents. Every year thousands are killed or injured when blow-outs throw cars out of control. Modern tires must be built to withstand the terrific heat generated inside the tire by today's high speeds . . . because it's this heat that causes high-speed blow-outs.

Put Yourself in this Picture

This man thought his tires were safe . . . but he did not know that the heat inside his tire had caused rubber and fabric to separate. A tiny, unseen blister inside his tire grew bigger and BIGGER until suddenly, BANG! A blow-out hurled his car off the road. This might be you!

PLAY SAFE! ONLY SILVERTOWNS GIVE YOU Golden Ply BLOW-OUT PROTECTION

This amazing new invention, the Life-Saver Golden Ply, resists heat. Thus rubber and fabric do not separate and the blow-out blister is checked before it even gets started. Yet in spite of the fact that this wonderful protection costs more to build into Silvertowns, it is Free—because you pay not one penny more for Goodrich Silvertown Tires, the only tire in the world with this life-saving invention. See us today about a set of Silvertowns.

BATTERY WEAK? Let us recharge it before you get stuck

You never know when a weak battery will leave you stranded. We'll put new life into it for you and coax more service out of it. But when you are ready for a new one, let us show you our super-power batteries.
